Angel of Hope
Watercolor on Paper
18 x 24 inches

Born and raised in Seguin, Texas, I now teach art and yearbook classes in the Comal Independent School District. My fine arts degree, with an emphasis in graphic design, is from Texas State University in San Marcos.

When I am not teaching or designing, I enjoy painting and

working on photography projects for friends and family. Watercolor and chalk pastel are my favorite mediums to work in. I also enjoy silk painting and making alcohol inks.

My paintings are mostly done in a representational style with the subject matter chosen from my road trips and cycling trails. Often, I choose subjects

in nature—flowers and animals or architectural elements—and present them with a unique perspective. My paint strokes are rich and fresh in color showing a lot of light. Most recently, I have shown my art at Rio Claro Studio in San Marcos, Art on 12 Gallery in Wimberley, and at the Seguin Art League Gallery.
